

BUILDING FOR A BRIGHTER FUTURE

Centre 404's campaign to open up our building and make it more accessible

We are planning a complete redesign and rebuild of our basement to provide:

- Access for those with physical disabilities by installing an accessible entrance/reception, a lift to the ground and first floors, more disabled toilets and a 'Changing Places' toilet
- A new garden meeting room with kitchenette to make full therapeutic use of the garden by opening up the back of the building
- An accessible kitchen to provide catering, and to teach nutrition, healthy eating and cooking skills
- Refurbished meeting/counselling rooms suitable for individual and group support work
- Modern insulation, double glazing and heating to cut costs and environmental impact

"Please help us to achieve our dream, as we support people with learning disabilities to make their dreams reality."

Linda McGowan - Chief Executive

If you are interested in supporting our campaign or if you would like any more information please contact Amy Curtis on 020 7607 8762.
